

Sudhir Nandane

Full Stack Web Developer

Dedicated and motivated Fullstack web developer, proficient in MERN stacks with 2 year of hands-on experience in building modern web interfaces. Proficient in translating design concepts into functional, efficient, and visually appealing UI. Passionate about creating responsive, user-friendly interfaces that enhance the user experience. Eager to collaborate with interdisciplinary teams to contribute to organizational growth while expanding my skills into full-stack development.

- Implemented secure user authentication, authorization, and streamlined admin functionality.
- Proficient in full-stack technologies, demonstrating a comprehensive understanding of the development lifecycle. understanding of the full software development lifecycle.Redux State Management.

PROFESSIONAL EXPERIENCE

SDE-1 CgMeetup | feb 23 -Dec 23

- Collaborate with teams to gather project requirements.
- Develop scalable web apps with Next.js for performance.
- Create responsive front-end interfaces for seamless user experience.
- Integrate back-end services for UI/UX feasibility.
- Write clean JavaScript code following best practices.
- Utilize modern tech for third-party API integration.
- Conduct testing and optimization for high performance.
- Participate in Agile methodologies for project management.
- Stay updated on industry trends for continuous improvement.

SDE-1 Itaxeasy pvt ltd | Jan 24 - Present

- Collaborate with teams to gather project requirements.
- Develop scalable web apps with AWS services for optimal performance.
- Create responsive front-end interfaces for seamless user experience.
- Integrate AWS backend services for UI/UX feasibility.
- Write clean code in JavaScript (ES6/ES7) following industry best practices.
- Utilize AWS technologies for third-party API integration and enhanced functionality.
- Conduct testing, debugging, and optimization for reliable performance.
- Participate in Agile methodologies for project management.
- Stay updated on industry trends and AWS services for continuous improvement.
